BIBLIOGRAPHY

Miss. Thiptida Kaewtathip is professional researcher at Department of Food Chemistry and Physics in Institute of Food Research and Product Development, Kasetsart University. I graduated Bachelor's degree in department of Fishery products and Master's degree in department of Food Science and Technology at Kasetsart University. I study in Doctoral Degree in department of Food Science and Technology at Kasetsart University. I have been working in Institute of Food Research and Product Development, Kasetsart University since 2012. I experienced working in the McKey Food Services (Thailand) Ltd. My research area is about food emulsion, encapsulation, flavor and food processing.

RESEARCH EXPERTISE

- Encapsulation
- Food processing
- Food composition analysis by Electronic nose GC-MS (Head-space)
- Freezing preservation of food
