

DR. NAPASSORN PEASURA

Practitioner Researcher

PROFILE

Practitioner Researcher
of Applied Microbiology,
Institute of Food Research and
Product Development,
KASETSART UNIVERSITY

BIBLIOGRAPHY

Dr. Napassorn Peasura graduated with a B.Sc. in Food Science and Technology from Kasetsart University, a M.Sc. in Post-harvest Technology and a Ph.D in Biochemical Technology from King Mongkut's University of Technology Thonburi. Her research has focused on product development that contained bioactive compounds from plant extract as an active ingredient. She has worked with biological activity investigation of plant and microbial extract, including antioxidant activity, immunostimulating and antidiabetic activity, etc. She is experienced in active compound structure analysis such as phenolic compounds, flavonoids and carotenoids.

RESEARCH EXPERTISE

- Product development
- Bioactive compound extraction
- Bioactive compound structure analysis
