BIBLIOGRAPHY

Dr. Wanida Pan-Utai is a Expert Researcher at the Department of Applied Microbiology, Institute of Food Research and Product Development, Kasetsart University. Her research interests include microalgal and algal biotechnology relating to algae-based biomass production, cultivation, biochemistry, harvesting, and extraction to obtain high-value bioproducts. Dr. Pan-Utai is an experienced lecturer who has published many papers in the rapidly expanding field of commercial algal applications. She can be contacted at ifrwdp@ku.ac.th.

RESEARCH EXPERTISE

- Algal Biotechnology
- Food Biotechnology
- Bioproducts
- Applied microbiology
